- Are We Writing Editorials Letting Others know what Social Workers are Doing?
- Are we connected to sw organizations/NGOs and paying attention to World Events?
Challenges to Practicing Global Social Work

- Focused on Direct Practice Serving one client at a time
- Not engaging in the political process and policy making decisions (Macro Practice)
- Burnout, Compassion Fatigue, Secondary Trauma, High Caseloads, High Stressed Job
- Fear of Using Social Media Related to Practice
- Fear of Using Social Media and Digital Media due to Privacy Concerns
To Use or Not To Use Social Media

- How can our profession begin to adopt the technological tools utilized in other disciplines, adapt them to increase our ability to be more effective on all practice levels, as well as educate the public and politicians on the value of social work?
- There are instances where social work and social media, depending on your job descriptions and direct practice with clients, must adhere to a stricter standard due to safety concerns for the social worker and client confidentiality.
- For those who are working on a policy and community practice level, social work and social media is essential in carving one’s self as an expert in your field, create awareness, as well as provide the ability to mobilize resources quickly.
